Speaking their language...

**Beyond steroids:
Treatment options for atopic
dermatitis**

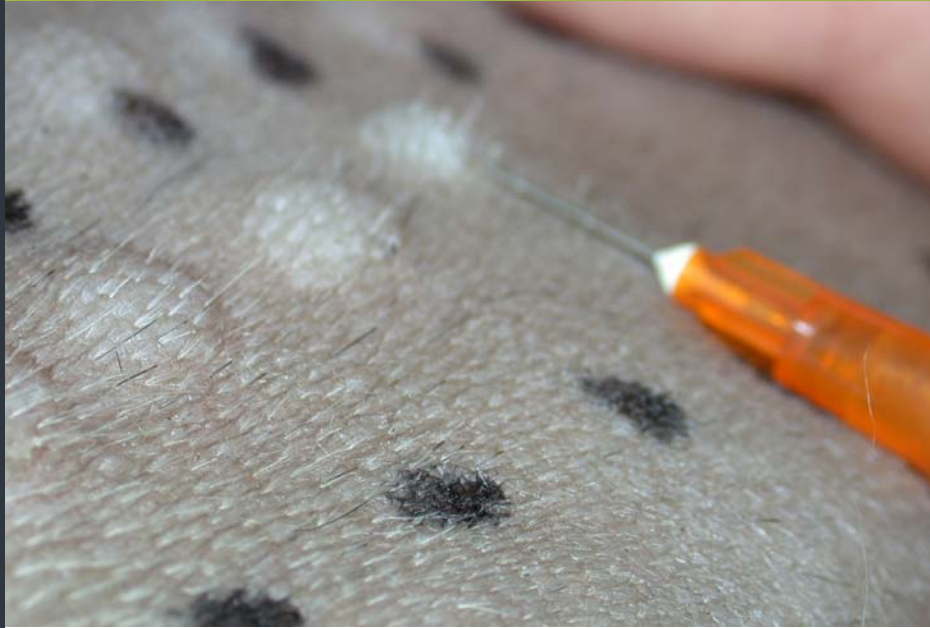

8th December 2009

Atopic

dermatitis:

Cases of atopic dermatitis are very common and can be frustrating to deal with. Managing client expectation is one important aspect. This talk will give an overview of the different management options available.

Steve Shaw, BVetMed PhD Cert SAD MRCVS

Steve Shaw qualified from the Royal Veterinary College in 1987. He spent 4 years in practice before becoming Junior clinical fellow in dermatology at the Animal Health Trust Newmarket. He gained his RCVS Certificate in Dermatology in 1992 and his PhD studying atopic dermatitis in dogs in 2000. From 2001 to 2006 he was head of dermatology at the AHT and from 2006 to 2009 worked at Rutland House Referrals in St Helens. Steve now works as an independent dermatology consultant part-time whilst studying from the ECVD and RCVS Diplomas in Dermatology. Steve is the National Dermatology Advisor in Dermatology to Guide Dogs and is currently an RCVS examiner for the Cert VD. Steve will be providing dermatology cover at Chiltern Referrals while Ariane is on maternity leave.
